

Team Tanzania Scholar Award

Background

The Team Tanzania Scholar Award was established in 2009 by Maendeleo (www.maendeleoyetu.org), an organization created by Tanzanians living in the United States to recognize and encourage excellence in medical training at Weill Bugando Medical School. Starting in 2012, the award will also be given to students at Kilimanjaro Christian Medical College (KCMC). The \$500 award is given annually to the top ranked student in Years 1, 2, 3 and 5 medical classes. The funds for the award are collected in an annual fundraising drive that Maendeleo organizes in the United States. This drive allows Tanzanians in the diaspora and other supporters to contribute towards supporting the development of medical professionals in Tanzania.

The Team Tanzania Scholar Award is merit-based and Maendeleo does not stipulate what the recipient can do with the Award funds.

Eligibility

Eligibility for the award is based on the marks achieved at the end of each school year. The winning students, those with the highest marks, are selected by the faculty of the medical school. The award is given out directly to the students during the annual convocation or graduation ceremony.

The award is only given to medical students in Years 1, 2, 3 and 5 as year 4 students are in rotation.

Recipient requirements

Although there is no application process for the award, Maendeleo does ask that award recipients agree to have their photo taken at the award ceremony and to write a brief reflection on their medical training and what the award means to them within one month of receiving the award. The photo and letter are posted on the Maendeleo website so that contributors to the award can see who the recipients are and what the impact of the award is. This also helps Maendeleo successfully fundraise for future awards.

We ask selected students to agree to these requirements.
